LINKS TO OTHER SUBJECTS

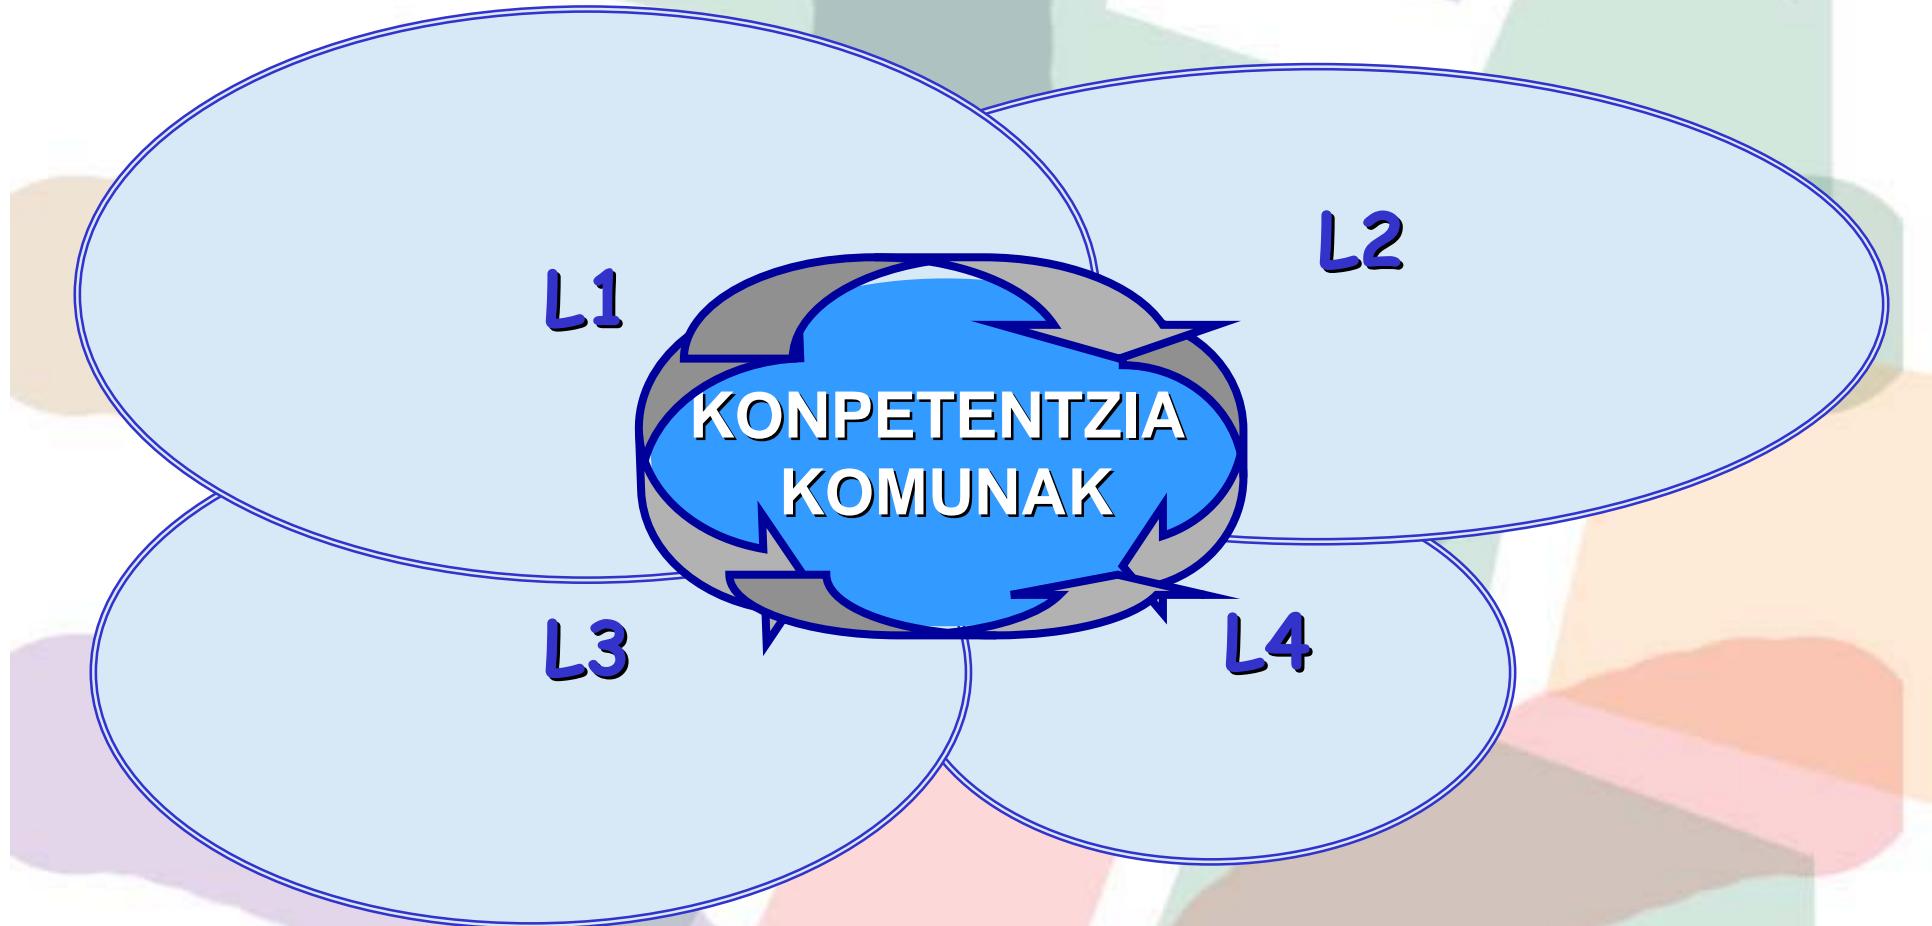

This unit is linked to the **Social Science unit “Liberty, Equality and Brotherhood?”**

- Through this SS unit, students will have **to read and synthesise various types of informative texts**, specially texts whose aim is to establish relations of cause-consequence and contrast-comparison between various ideas or events. In order to guide students through those processes, this English unit works on some of the procedures involved in the comprehension and production of such texts.
- Students will also be required to **infer various points of view** present in primary and secondary sources. This inference work has been located within the framework of comprehending and producing opinion letters.
- In terms of the text production (oral or written) required by SS, students will be able to apply the **planning and reviewing procedures** and resources learnt in the English materials.

This unit is also linked to the following Ostadar Euskara & Ostadar Lengua y Literatura units which work on argumentation in general and opinion letters in particular:

- ¿Tú qué opinas? (2nd year)
- Zer deritzozu horri? (2nd year)
- El espectáculo del deseo (3rd year)
- Eguneroko prentsa (3rd year)

The unit is also linked to 3rd year English material, specially to the “Botellón debate” unit, which can be found on the web page.
